

The Company

Approved by the board of Investment of Sri Lanka as a large scale manufacturer and exporter of industrial/household brushes , brooms and brush blocks.

Infrastructure

Fully integrated factory having a total built up area of 30,000 sq. ft exclusively designed to manufacture brushes from saw milling/timber treatment stage to fibre filling and finishing.

All the machinery installed are of semi-automatic type from specialists in the trade from Germany, Belgium and India.

Product Range

Our products are available in a wide variety of sizes and styles including hand scrubs, deck scrubs, banisters, saddles, push brooms, street brooms-just to name a few.

Both industrial and household brushes, brooms and blocks are made out of treated rubber wood (Rubber wood is a renewable raw material, where trees are replanted every 30 year or so after tapping latex) and it gives you a warm appearance, great feel and durability

The filling will vary from natural/dyed coconut fibre, palmyra fibre, mixed fibre and synthetic fibre such as PVC or PP.

Award Winner Consecutively for the second year at the "NCE Awards"
National Chamber of Exporters of Sri Lanka

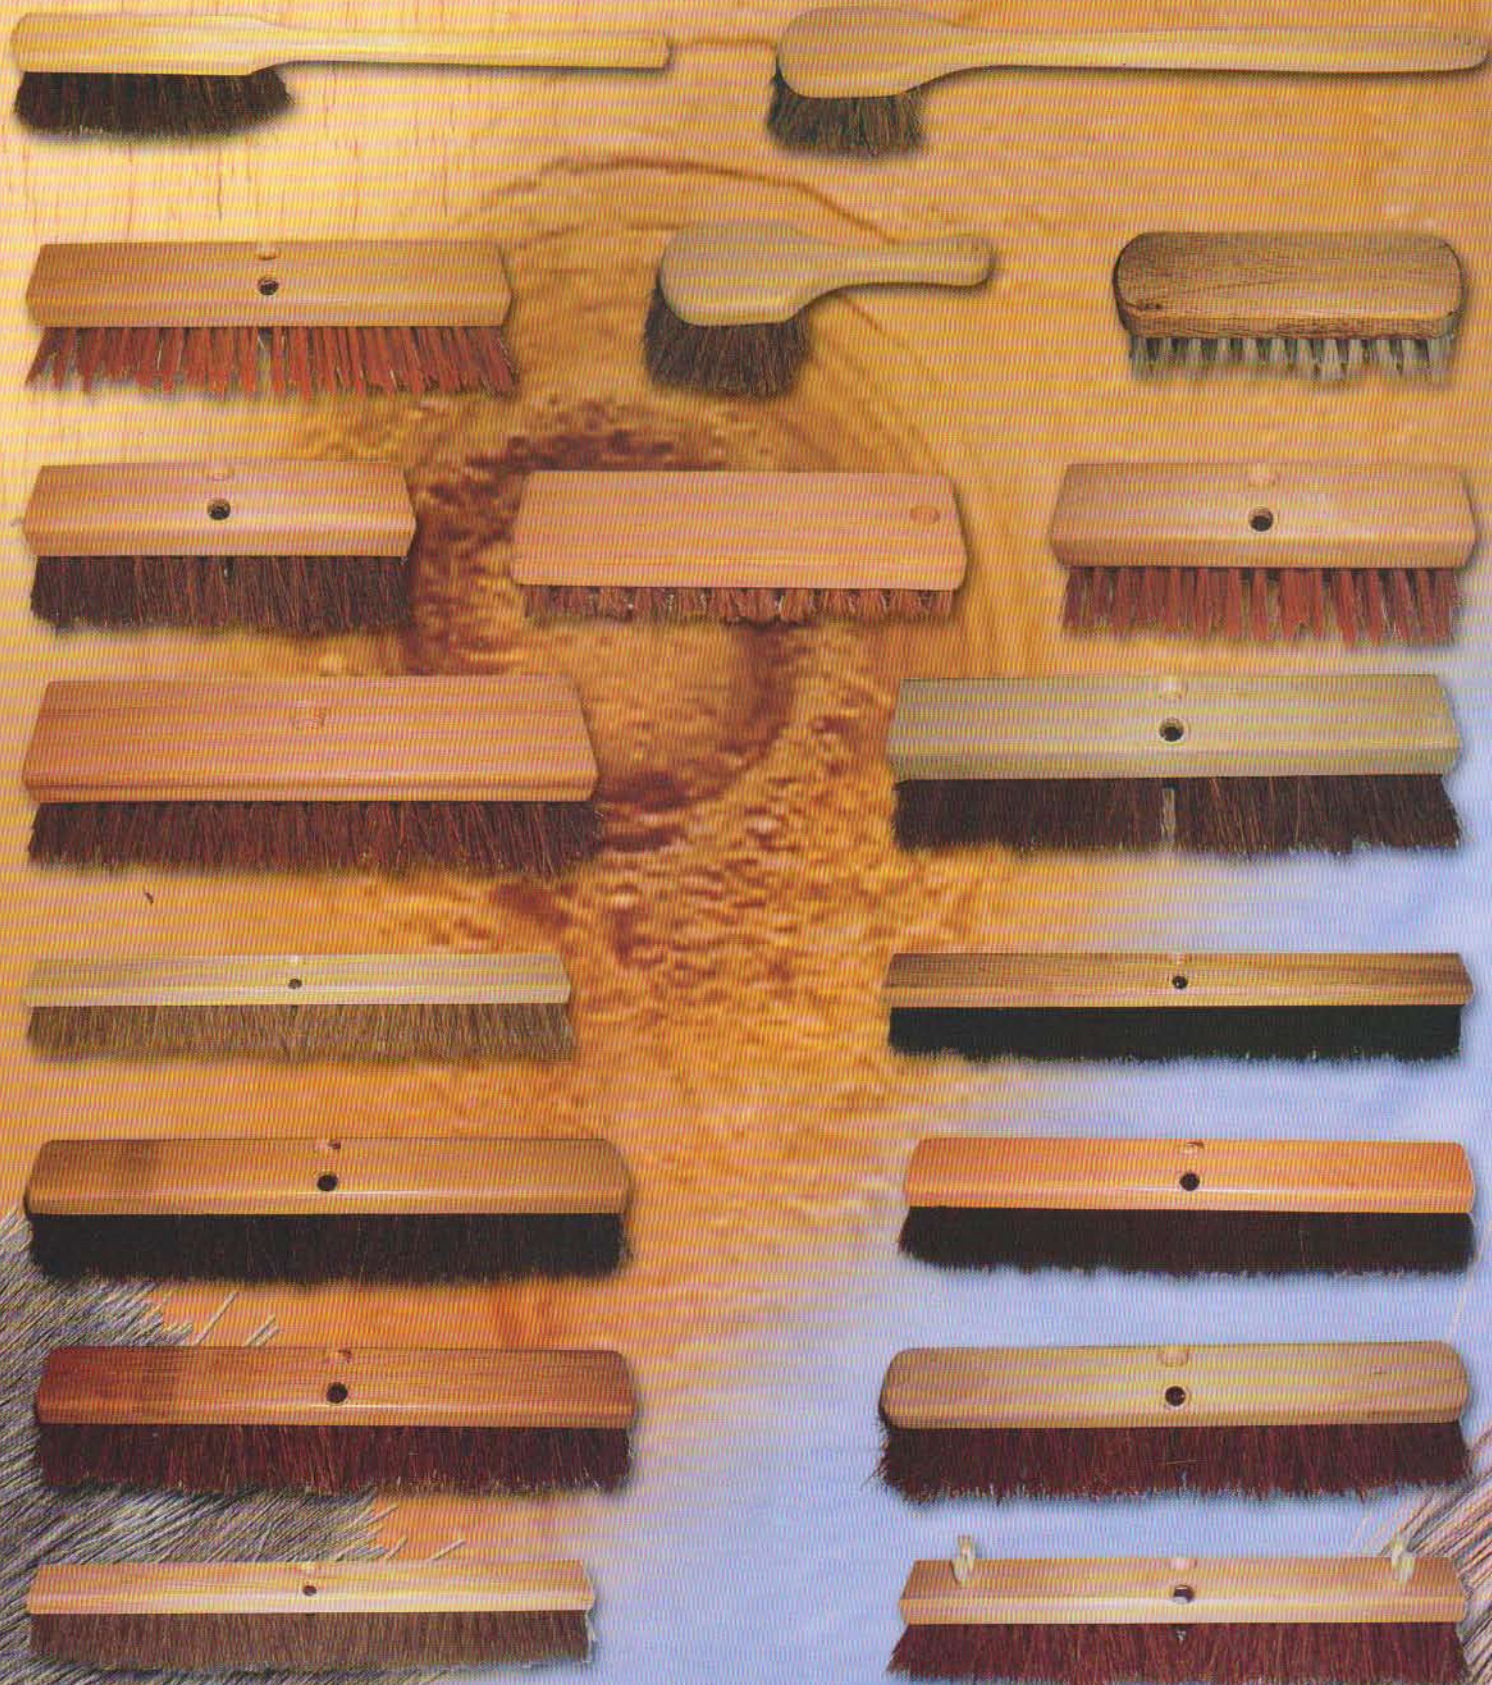

- Members of - National Chamber of Exporters of Sri Lanka.
- Sri Lanka Coir and Allied products Manufacturers Association.
- International Chamber of Commerce of Sri Lanka.
